Subject: Too much power

Microsoft has too much power. I asked my MAC son, "Hey, howcum we never have virus problems at home like we do at work?" "Because we have MAC's, dad. All the viruses are in Microsoft world." Have big legal arguments all day long. At the end of the day, Microsoft has too much power. It hurts us consumers. It's not good for the world, and it's not good for America.
